Re: Remediation of Potential Danger to the Public, GoldTerra, Inc., Blue Castle Mine. S/015/077,
Emery County, Utah

Dear Mr. Sheppard:

On April 17, 2003, I wrote and asked that you do some work at the Blue Castle Mine pit to make it more safe. Options I suggested were to fence the area, to fill the pit, or to grade it so it was less steep or so a person or animal could escape. Dan Guy later telephoned and informed me that the grading work had been completed.

Wayne Hedberg, Susan White, and Joelle Burns visited the site on August 8, 2003. and confirmed that the work had been done. A copy of their inspection report is enclosed.

Thank you for your cooperation in completing this work.

Sincerely,

Paul B. Baker
Senior Reclamation Biologist
